Event Overview: Invitrogen is a leading developer, manufacturer and marketer of research tools and reagents for life sciences research, drug discovery, clinical diagnostics and commercial bioproduction. The life sciences research market consists of laboratories generally associated with universities, medical research centers, government institutions and other research institutions as well as biotechnology, pharmaceutical, energy, agricultural and chemical companies. Life sciences researchers use Invitrogen reagents and informatics to perform a broad range of functions in the laboratory.

From FY 1999 to 2002, Invitrogen's revenues grew approximately six-fold to about \$650 million through strategic acquisitions of 20+ organizations, in-licensing of novel technologies, and by developing and launching innovative products and services. From FY 2002 to 2006, Invitrogen's revenues increased another two-fold to \$1.2 billion. With a current market capitalization of around \$4.2 billion, Invitrogen is a flagship company in the research tools segment. Greg Lucier will share his experiences in conceiving of and executing Invitrogen's transformation to a leading world-class business.

Speaker Bio: Gregory T. Lucier has served as Chief Executive Officer and member of the board of directors of Invitrogen since May 2003. In April 2004 he was appointed Chairman of the Board of Directors. Prior to Invitrogen Mr. Lucier was the President and Chief Executive Officer of GE Medical Systems Information Technologies from June 2000 to May 2003. Mr. Lucier was named a corporate officer of General Electric Corporation (GE) in 1999 and served in a variety of leadership roles during his career at GE including Vice President Global Services, GE Medical Systems. Mr. Lucier is currently a director of BIOCUM, serves on the BIO Board of Directors as well as the board of the Burnham Institute of Medical Research and is actively involved at San Diego State University as a distinguished lecturer. He received his B.S. in Engineering from Pennsylvania State University and an M.B.A. from Harvard Business School.

TiE San Diego Chapter

The IndUS Entrepreneurs (TiE) was created to enrich, foster and facilitate entrepreneurship within our local communities. The San Diego Chapter hosts monthly events with prominent speakers sharing their experiences and insights. Whether you are thinking of starting your own company, working for an entrepreneurial company, or striving to be a leader in a large corporate setting, you should benefit from TiE. We invite you to attend our events to meet and network with other professionals. You never know where this may take you!
